

List of Symposia MTERMS 2026

7 th SEPTEMBER 2026, Monday (Day 1)			
Symposia Session	Theme	Chairperson & Affiliation	Invited Speakers
SP 1 (Grand Ballroom) 11:00 am – 12:15 pm	Functional Biomaterials for Regenerative Medicine	Dr. Nur Izzah Md Fadilah Department of Tissue Engineering & Regenerative Medicine (DTERM), Faculty of Medicine UKM Advanced Biomaterials-Biomedical-Biotec hnology Southeast Asia Consortium (ADV3BIO-SEAC)	1. Prof. Dr. drg. Juni Handajani, M.Kes., PhD, (KIV) Faculty of Dentistry, Universitas Gadjah Mada, Indonesia Title: Therapeutic effects of SHED-conditioned medium on traumatic buccal mucosa ulcers 2. Dr. Abdul Manaf Abdullah UiTM, Malaysia Title: Development of Carbon Fiber and Zinc Oxide Reinforced Polyamide 6 Filaments for Enhanced Mechanical, Physical, and Antibacterial Properties for Craniofacial Reconstruction 3. Dr Nur Farahiyah Mohammad University Malaysia Perlis, (UniMAP), Malaysia Title: Engineering Functional Hydroxyapatite Coatings with Plant-Derived Polyphenols for Bone Regeneration and Orthopedic Implants 4. Assistant Professor Chih-Hsin (Melody) Lin National Yang Ming Chiao Tung University, Taiwan Title: A machine learning liver-on-a-chip system for safer drug formulation
SP 2	Cell-Free Therapies:	Assoc Prof Dr Law Jia Xian	1. Professor Dr. Norshariza Nordin Genetics & Regenerative Medicine (ReGEN) Research Group,

(Grand Patio) 11:00 am – 12:15 pm	Secretome, Exosomes, and Conditioned Media	DTERM, Faculty of Medicine, UKM, Malaysia Malaysia society for EV (MySEV)	Faculty of Medicine & Health Sciences, Universiti Putra Malaysia Title: Natural Herb-Primed Neural Stem Cell-Derived Small Extracellular Vesicles Enhance Cross-Species Neurogenesis 2. Assoc Prof Dr Yogeswaran Lokanathan DTERM, Faculty of Medicine, UKM, Malaysia Title: 3D Bioprinted Genipin-Crosslinked Gelatin Hydrogel with MSC-sEVs for Wound Healing 3. Assoc Prof Dr Law Jia Xian DTERM, Faculty of Medicine, UKM, Malaysia Title: Therapeutic potential of mesenchymal stem cell-derived extracellular vesicles in skin diseases 4. Dr Maimonah Eissa Al-Masawa Department of Pharmaceutical Life Sciences, Faculty of Pharmacy, Universiti Malaya Title: Extracellular Vesicle Therapy: Promise and Challenges 5. Dr. Tan Sik Loo Department of Orthopaedic Surgery, Faculty of Medicine, UM, Malaysia Title: Extracellular Vesicles-Derived MicroRNAs Signatures in Osteoarthritis: Comparative Profiling of Synovial Fluid and Systemic Circulation
---	---	---	---

SP 3 (Patio 1) 11:00 am – 12:15 pm	iPSC: Innovations Toward Clinical Translation	Assoc. Prof. Dr. Fazlina Nordin DTERM, Faculty of Medicine, UKM	1. Prof. Dr. Michael KH Ling Faculty of Medicine and Health Sciences, UPM, Malaysia Title: Neurodevelopmental Dysregulation in Down Syndrome: Mechanistic Insights from Human iPSC-Derived Neural Models 2. Dr. Rizal Azis Research Center for Biomedical Engineering, Faculty of Engineering, Universitas Indonesia Title: Generation Of Multiple Cell Types Derived From Hipscc For Multi-Tissue Organoids 3.Dr. Zach Pang Bioprocessing Technology Institute (BTI), A*STAR, Singapore. Title: iPSC upscaling production and culture media optimization 4. Dr. Izyan Mohd Idris Institute for Medical Research, National Institutes of Health, Malaysia Title: From Skin to Synapse: Building Malaysia's iPSC-Brain Organoid Platform for Rare Disease Discovery at IMR
8th SEPTEMBER 2026, Tuesday (Day 2)			
SP 4 (Grand Ballroom) 11:00 am – 12:15 pm	Translational Biofabrication in Regenerative Medicine: Bridging Cells,	Assoc. Prof. Dr Nur Aliana Hidayah Mohamed Faculty of Dentistry, Universiti Teknologi MARA	1. Assoc. Prof. Dr. Nurulhuda Mohd Department of Restorative Dentistry, Faculty of Dentistry, UKM

	Biomaterials, and Clinical Applications		Title: In Vivo Evaluation of a 3D-Bioprinted Gelatin-Hydroxyapatite Scaffold for Periodontal Tissue Regeneration in a Rat Model 2. Prof. Dr. Masfueh Razali Department of Restorative Dentistry, Faculty of Dentistry, UKM Title: Angiogenic signaling molecules in periodontal regeneration: A scoping review 3. Dr. Nurul Aida Ngah Centre of Oral and Maxillofacial Surgery Studies, Faculty of Dentistry, UiTM Title: Engineering a Bioactive Lyophilised Platelet-Rich Fibrin-Based Scaffold for Craniofacial Bone Regeneration 4. Associate Prof Ts Dr Nur Aliana Hidayah Mohamed Faculty of Dentistry, Universiti Teknologi MARA, Malaysia Title: Titanium Dioxide Nanotube and Pluronic F127-Enhanced Simvastatin-Loaded Porous Microsphere Scaffolds with Improved Mechanical Properties for Bone Regeneration 5. Dr. Apt. Febri Annuryanti
--	---	--	---

			Faculty of Pharmacy, Universitas Airlangga, Surabaya, Indonesia Title: Advanced 3D-Printed Ocular Implants for Long-Acting Glaucoma Therapy
SP 5 (Grand Patio) 11:00 am – 12:15 pm	TERM Research	Dr. Izyan Mohd Idris Institut Penyelidikan Perubatan (IMR)	1. Prof. Kai-Chiang YANG Taipei Medical University Title: Engineering Fibrotic Microenvironments for Tissue Regeneration Using MicroRNA-Loaded Chitosan Nanocomplexes 2. Dr. Wiwit Ananda Wahyu Setyaningsih Department of Anatomy, Faculty of Medicine, Universitas Gadjah Mada, Indonesia Title: HDAC11–STAT3 axis drives infection-induced endothelial inflammation and dysfunction in diabetic iPS-ECs 3. Dr. Muhammad Fauzi Daud Universiti Kuala Lumpur - Institute of Medical Science Technology Title: Engineering Artificial Tissue Through Innovative 3D Cell Culture Models 4. Prof. Wei-Jen Chang School of Dentistry, College of Oral Medicine, Taipei Medical University Title: Precision Bone Regeneration in Implant Dentistry
SP 6	Vascular Regenerative and Reparative	Dr. Farina Mohamad Yusoff Hiroshima university, Japan	1. Professor Yukihiro Higashi (MD, PhD, FAHA, FJSH)

(Patio 1) 11:00 am – 12:15 pm	Medicine - A Frontier		Research Institute for Radiation Biology and Medicine Hiroshima University, Hiroshima, Japan. Title: Therapeutic Angiogenesis 2. Dr. Masato Kajikawa (MD, PhD) Medical Center for Translational and Clinical Research, Hiroshima University Hospital, Hiroshima, Japan. Title: State-of-the-art Cell Processing Room at Hiroshima University Hospital for Regenerative Medicine 3. Ts. Dr. Nor Azfa Johari (PhD) Malaysia Genome and Vaccine Institute, National Institutes of Biotechnology Malaysia, Kajang, Malaysia. Title: Potential of Proteomics in Determining Therapeutic Molecular Characteristics for Tissue Regeneration 4. Dr. Tetsuya Yoshimoto (DDD, PhD) Center for Oral Clinical Examination, Hiroshima University Hospital, Hiroshima, Japan Title: Vascular Stabilization as a Strategy to Prevent Bone Loss: Insights from Low-intensity Pulsed Ultrasound (LIPUS) under Unloading Model 5. Dr. Farina Mohamad Yusoff (MBBS, PhD, FSVM) Research Institute for Radiation Biology and Medicine, Hiroshima University, Hiroshima, Japan Title: Paradigm Shift for Vascular Regeneration in Regenerative Medicine.
---	------------------------------	--	---

SP 7 (Grand Ballroom) 14:00 pm -15:15 pm	Nerve & Skin Regeneration	Dr. Nur Atiqah Haizum Abdullah DTERM, Faculty of Medicine, UKM	1. Assoc. Prof. Dr. Tan Suat Cheng School of Health Sciences, Health Campus, USM Title: Transcriptome Analysis of Ischemic Stroke Recovery Induced by Neural Stem Cell Preconditioned with Baicalein-Enriched Fraction of <i>Oroxylum Indicum</i> 2. Dr. Nur Atiqah Haizum Abdullah DTERM, Faculty of Medicine, UKM Title : Development of an In Vitro Parkinson's Disease Model Using Differentiated SH-SY5Y Cells for Phoenixin Characterization 3. Dr. Nur 'Izzati Binti Mansor Nursing Department, Faculty of Medicine, UKM Title: Development of In Vitro Neurodegenerative Models Using Stem Cell-Derived Neural Cells for Natural Product Screening 4. Dr. Nur Izzah Md Fadilah DTERM, Faculty of Medicine, UKM, Malaysia Title: Evaluation of Hyaluronic Acid-Based 3D Printable Hydrogel as a Bioink for Skin Tissue Engineering
SP 8 (Grand Patio)	Smart Technology for	Ts. Dr. Noor Badariah Asan Faculty of Electronics and Computer Engineering,	1. Assoc. Prof. Dr. Mohamad Zoinol Abidin bin Abd Aziz Universiti Teknikal Malaysia Melaka (UTeM) Title: High directive microwave sensor

14:00 pm -15:15 pm	Medical Applications	Universiti Teknikal Malaysia Melaka (UTeM)	2. Ts. Dr. Abd Shukur bin Ja'afar Universiti Teknikal Malaysia Melaka (UTeM) Title: Advances in AI-Driven Microwave Technologies for Skin Wound Classification and Monitoring 3. Ir. Ts. Dr. Noor Badariah binti Asan Universiti Teknikal Malaysia Melaka (UTeM) Title: Characterization of the Dielectric Properties of Normal Mouse Tissues and Organs 4. Assoc Prof. Dr Nurul Huda binti Abd Rahman Universiti Teknologi MARA (UiTM) Title: From Beam Steering to Body Sensing: Advanced Lens and Planar Antenna Technologies for Next-Generation Biomedical Applications 5. Assoc Prof. Robin Augustine Uppsala University, Sweden Title 1: A Non-Invasive Microwave Sensor for Cerebrospinal Fluid Detection in a Layered Head Phantom Title 2: Floating Microwave Resonator for CSF-Sensitive Cranial Phantom Monitoring
SP 9	Bridging the Gap from	Dr. Adila A. Hamid	1. Dr Abid Nordin Medcentral Consulting

(Patio 1) 14:00 pm -15:15 pm	Innovation to Clinical Translation in Emerging Cell Therapies	Physiology Department, Faculty of Medicine, UKM	Title: From NCEs to CGTPs: A CRO Perspective on Regulatory Challenges in Emerging Therapies 2. Assoc. Prof. Dr. Fazlina Nordin DTERM, Faculty of Medicine, UKM, Malaysia Title: Enhancing MSC Therapeutic Potential Through Hypoxia and IFN-γ Priming for Mitochondrial Disease 3. Dr. Manira Maarof DTERM, Faculty of Medicine, UKM Title: Clinical translational research: UKM GMP Experience 4. Dr Woo Jun Yung AGeM Bio, Singapore Title: Engineering MSC 2.0: An Integrated Platform for Next-Generation MSC Therapeutics 5. Assoc. Dr. Norashikin M. Thamrin Microwave Research Institute (MRI), Universiti Teknologi MARA, 40450 Shah Alam, Selangor Title: Can Robots Help the Human Body Heal? Intelligent Sensing, AI and Automation for Regenerative Medicine
---	--	--	---
