

10th MALAYSIAN TISSUE ENGINEERING & REGENERATIVE MEDICINE SCIENTIFIC MEETING  
(MTERMS)2026

**“FROM DISCOVERY TO THERAPY: ADVANCES IN TISSUE ENGINEERING AND  
REGENERATIVE MEDICINE”**

accordingly.

- Assist with the Q&A session by passing the microphone to audience members who wish to ask questions.
- Inform the symposium committee once the symposium session has concluded.

For any questions before the meeting, please contact **Dr. Manira Maarof** (email: [manira@ukm.edu.my](mailto:manira@ukm.edu.my) ; mobile: +6013-222 0673) or **Dr. Adila A. Hamid** (email: [adilahamid@ukm.edu.my](mailto:adilahamid@ukm.edu.my) ; mobile: +60 17-395 3972).

| Technical Team                                 | Symposium Presentation Session (SP) |
|------------------------------------------------|-------------------------------------|
| Ponnhmalar A/P Subramaniam (P153684)           | SP1                                 |
| Bharathidhasan Raman (P154954)                 | SP2                                 |
| Kalaiselvaan A/L Thanaskody (P137919)          | SP3                                 |
| Nurul Ain Binti Ahmad Zawawi (P143394)         | SP4                                 |
| Khalisa Husna Binti Kahar (P159646)            | SP5                                 |
| Nur Aifa Asyhira Binti Khairul Nizam (P138495) | SP6                                 |
| Norrul Afzan Binti Zainal Abidin (P160494)     | SP7                                 |
| Suganthi A/P Kumar (P154591)                   | SP8                                 |
| Naga Darsshini A/P Manickavasakam (P168483)    | SP9                                 |

## List of Symposia- MTERM 2026

| 7 <sup>th</sup> SEPTEMBER 2026, Monday (Day 1)                       |                                                   |                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
