

MTERMS *e-POSTER* PRESENTATION GUIDELINES

All poster presentations at **MTERMS 2026** will be displayed as ***e-posters*** on the physical digital Poster panels in the **designated poster area** at the Conference venue, **Concorde Hotel Shah Alam**.

All successful delegates whose abstracts have been accepted for ***e-Poster*** presentations must submit their ***e-Posters*** to the MTERMS 2026 Scientific Committee (*e-Poster* Committee) by **5 September 2026 (Saturday), 12.00 noon Kuala Lumpur time**. The ***e-Poster*** must be prepared using the attached **official PowerPoint (PPT) template** provided and must comply with the ***e-Poster* guidelines** outlined below.

Before submission, the completed ***e-Poster*** must be converted to **MP4 format** and submitted as an email attachment.

The ***e-Poster*** guidelines are as follows:

***E-POSTER* SIZE AND FORMAT GUIDELINE**

1. ***E-Poster*** should be composed in vertical format (**9:16 ratio**), preferably using Microsoft PowerPoint software.

File format	MP4 (.mp4)
Orientation & Format	Portrait Format, Single-Slide Ratio 9:16
Recommended font size	Arial font. Minimum font size is 16
Recording length	No more than 5 minutes (Maximum 300 seconds)
Maximum file size	1 GB

2. The ***e-Poster*** should consist of **ONE** recording **MP4 file only**.
3. Text and presentation should be in English only.
4. The content of the ***e-Poster*** should consist of the following details:
 - Abstract number (e.g. **P0001**) in the top left corner of your ***e-Poster***.
 - Title of the E-Poster – Should be brief and should be in accordance with the title of the abstract submitted.
 - The logo of the affiliated institution or university of the presenting author should be placed in the upper right corner. Other logos, such as the affiliated institution or university of the co-authors, do not need to be displayed on the ***e-Poster***.
 - Names and affiliations of all authors.
5. **Arial font** should be used throughout the ***e-Poster*** with such clarity that it can be read clearly.
6. The title and subheadings should be written in bold. Recommended to avoid italics, as it would be harder to read.

***e-Poster* Presentation Themes**

Theme 1: *Advances in **Preclinical Evaluation** of Cell and Gene Therapy Products*

Theme 2: *Innovations in **Biomaterials** for Tissue Engineering and Regenerative Medicine*

Theme 3: *Emerging **Cell-Free Strategies** in Tissue Engineering and Regenerative Medicine*

A total of five (5) Rapid Fire (RF) presenters are shortlisted for each theme.

Shortlisted presenters will deliver their Rapid Fire presentations during the designated RF sessions at the *e-Poster* display area.

Each Rapid Fire presenter will be allocated a total of 8 minutes: **3 mins presentation + 5 mins Questions and Answers (Q&A).**

e-Poster Rapid Fire (RF) Sessions:

1. Monday, September 7, 2026 at 12:45 PM - 14:00 PM

All e-Poster delegates will have the opportunity to discuss their work during the scheduled presentation times listed below.

e-Poster Viewing Sessions (Refer to the eProgram Book for the latest schedule)

1. Monday, September 7, 2026 at 10:30 PM - 11:00 PM (Theme 1 Presenters)
2. Monday, September 7, 2026 at 12:45 PM - 14:00 PM (Theme 2 Presenters)
3. Monday, September 7, 2026 at 15:00 PM - 15:30 PM (Theme 3 Presenters + RF Presenters)
4. Tuesday, September 8, 2026 at 10:45 PM - 11:00 PM (Theme 1 Presenters)
5. Tuesday, September 8, 2026 at 13:15 PM - 14:00 PM (Theme 2 Presenters)
6. Tuesday, September 8, 2026 at 15:15 PM - 15:45 PM (Theme 3 Presenters)

All e-poster presenters MUST be present next to the digital Poster panels during their designated theme session.

Disclosure of any permitted use of AI-generated visual content:

1. Authors remain fully responsible for the accuracy, originality, scientific validity, and integrity of all content presented in the e-Poster.
2. AI tools must not be used to fabricate, manipulate, or misrepresent scientific data, experimental results, microscopy images, photographs, or other research findings.
3. AI-generated or AI-assisted content that forms part of the research methodology must be clearly identified and appropriately described.
4. This restriction does not apply to AI, machine learning, or computational methods that form part of the reported research and are clearly identified as such.
5. For the disclosure of the use of AI tools, presenters MUST disclose the following THREE items:
 - i. That AI was used;
 - ii. The name of the AI tool used; and
 - iii. Where applicable, that the AI-generated image or visual content is illustrative and does not represent original experimental data or research findings.
6. State one of the following in your figure legend, for each of your figure generated by AI tools:
AI-GENERATED VISUAL CONTENT DISCLOSURE: This figure/image was generated using [name of AI tool] for illustrative purposes. The content was reviewed and verified by the authors. It does not represent original experimental data or research findings.
AI-ASSISTED VISUAL CONTENT DISCLOSURE: AI tools were used to assist in the preparation of this figure/image using [name of AI tool]. The final content was reviewed and verified by the authors.

Disclosure of any permitted use of AI-generated visual content:

1. AI-generated images or other visual content must NOT be used to represent, simulate, fabricate, manipulate, or misrepresent scientific data or replace original experimental data, scientific results, microscopy images, clinical images, or other research findings.
2. Any AI-generated images, illustrations, or other visual content included in the ePoster must be clearly disclosed and must NOT be presented as original scientific data or evidence.

Examples of AI-generated visual content disclosure

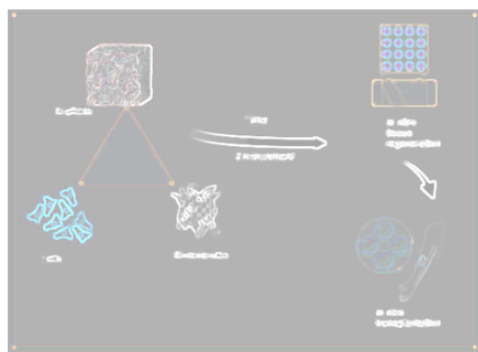

Figure 1. Schematic diagram of a tissue engineering construct (Created with BioRender.com).

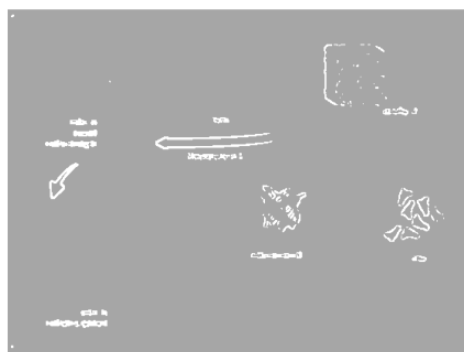

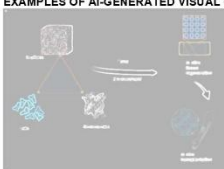

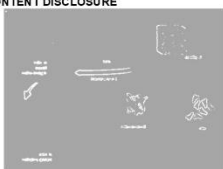

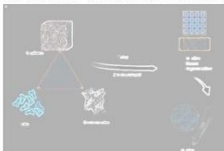

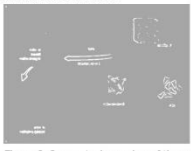

Figure 2. Conceptual overview of the proposed regenerative mechanism. This conceptual illustration was generated using [AI tool name] and reviewed and edited by the authors. It is used for illustrative purposes only and does not represent original experimental data, images, or results.

E-Poster Guidelines ▪ You must use this template slide as your starting point. ▪ <i>e-Poster</i> must conform to the guidelines below: i. Make sure to fill in the details for the Header fields above, ie.: Title, Author, Institution/Affiliation. ▪ <u>Underline</u> the presenting author. ii. Make sure to fill in your Poster ID (as above). Your ePoster ID is provided to you in the <i>e-Poster</i> acceptance email. iii. Each <i>e-Poster</i> must fit into ONE slide only. iv. Each <i>e-Poster</i> will be submitted as an MP4 file only, with a 5-minute or maximum 300 seconds voice-over recording. The MP4 recording must feature the presenter's own voice delivering the presentation. v. Maximum file size limit is 1GB. Files beyond this file limit will NOT be displayed by the <i>e-Poster</i> panel at the conference venue. vi. Orientation & format: Portrait format, single-slide ratio 9:16. vii. AI-generated images or other visual content must NOT be used to represent, simulate, or replace original experimental data, scientific results, microscopy images, clinical images, or other research findings. Any permitted use of AI-generated visual content MUST be clearly disclosed.			
INTRODUCTION E-Poster Font or other formatting: - The text size must be readable from at least 1 meter away (minimum font size is 16 pt). - The headings of the presentation should conform to the structure of the abstract: <table border="0" style="width: 100%;"> <tr> <td style="width: 50%; vertical-align: top;"> Original article: Introduction & Objective(s) Methods Results & Discussion Conclusions Research Significance Acknowledgement/Funding </td> <td style="width: 50%; vertical-align: top;"> Review article: Introduction & Objective(s) Methods (for Systematic Review) Results Or Subsections Conclusions Research Significance Acknowledgement/Funding </td> </tr> </table> - The MP4 recording must feature the presenter's own voice delivering the presentation. - You may remove these Guidelines texts/boxes. - To produce your <i>e-Poster</i>, save your file in MP4 format. Make sure you do NOT exceed our maximum file size limit of 1 GB. AI-generated visual content MUST be clearly disclosed. Incomplete / non-compliant e-Poster will NOT be accepted/displayed on the e-Poster panels at the conference venue.
